PROFESSIONAL SUMMARY

Front-End Developer focused on building responsive and user-friendly web applications using HTML5, CSS3, JavaScript, React.js, and Tailwind CSS. Hands-on experience constructing modern React applications featuring reusable components, robust state management, client authentication, admin dashboards, e-commerce workflows, and persistent local data storage. Possesses a strong foundation in Git and GitHub version control with a passion for clean, maintainable frontend architecture.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Responsive Design

React Stack: React Hooks, Component Architecture, State Management, React Router

Tools & Workflow: Git, GitHub, VS Code, Component-Based Architecture

Backend Currently Learning **:** Node.js, Express.js, MongoDB, REST APIs, MERN Stack

FEATURED PROJECTS

Shop Verse — E-Commerce Web Application

React.js | JavaScript | Tailwind CSS

- Built a full-featured, responsive React e-commerce application with modular component structure and separate customer/admin workflows.
- Implemented product catalog browsing, live search/filtering, shopping cart, checkout flow, wishlist, product comparison, and reviews.
- Developed a complete Admin Dashboard for real-time product management, customer analytics, and order status tracking.
- Integrated authentication workflows, protected routes, and persistent state to provide a realistic end-to-end e-commerce experience.

Live Demo: shop-in-shopverse.netlify.app
Admin Portal: shop-in-shopverse.netlify.app/admin/login

Employee Manager — Task Management Application

React.js | JavaScript | Tailwind CSS

- Designed a role-based productivity application featuring isolated operational dashboards for Administrators and Employees.
- Engineered task assignment, multi-status tracking (active, completed, failed), real-time filtering, and employee-specific task management.
- Created clean UI components and ensured application data persistence across browser sessions using localStorage.
- Built real-time metrics and progress monitoring cards for managers to oversee employee performance and task status.
